San Francisco Bay Area    ·    U.S. Citizen    ·    DoD security clearance in progress (C3 AI sponsored)

## Experience & Leadership

---

C3 AI - Forward Deployed Engineer Jun 2025 - Present

- **GenAI for USDA federal correspondence** (*FedRAMP Moderate on AWS*) - high-volume constituent inquiry processing.
  - Owned the production data model and dashboard UI through go-live; shipped **4 production releases in 7 weeks**, scaled to **296 users (3× contracted cap)**, handling **500 emails/hr**.
  - Post-launch: owner of observability & code-coverage epics; on-site for CIO Phase 2 scoping in DC.
- **CEO AI Tiger Team - Tech lead** (*Invited by CEO Stephen Ehikian*)
  - Designed and built the internal "AI Marketplace" platform: a self-serve system for intake, triage, tracking, and discovery of company-wide AI initiatives across Finance, Sales, Legal, Field Ops, etc.
- **U.S. Army Information Collection Management - Interop lead** (*\$23M IDIQ deploying C3 AI Decision Advantage*) - tactical intelligence tasking & collection, supporting CJADC2.
  - Built the REST integration layer using CUI schemas (Hydra API) for interoperability across sister Army Intel Apps (ASII, ISTT, WxOE).
- **Internal MCP contribution pipeline** (*proposed Sept 2025*) - AI-assisted dev tooling for the engineering org, built on Anthropic MCP.
  - Authored the internal guide on C3 tool/prompt design; **ran the company-wide launch demo**.
  - Scaled active contributors **2 → 35 in 12 weeks** and weekly active users **<10 → 91 across 6 engineering functions**; pipeline hosts **60+ merged prompts across 35 distinct dev tasks**, fulfilling the FDE org's quarterly objective to identify 15 AI-assisted workflows.
- **Cross-org technical authorship & mentorship** - Self-proposed and led the redesign of C3's global FDE onboarding (6-month two-phase rollout, LLM/MCP tooling integration), **now the org-wide standard**; Authored REST error-handling, API design, and source-control standards reused across federal programs.

Codeology @ UC Berkeley - Selective SWE consulting club Jan 2022 - May 2025

- **Project Lead, DebaterHub (\$15k contract)** - Owned biweekly client reviews with startup CTO and Co-Founder - demoing progress, fielding stakeholder feedback, and iterating scope across a **14-week engagement**; **Led 6-engineer team** to build an AI-research-platform front-end with vector-DB retrieval.
- **Director, Recruitment & Education** - Led recruitment strategy producing **400+ applicants at 3% acceptance**; designed & taught 8-week full-stack web dev course (6 students shipped E2E products).

## Education

---

University of California, Berkeley Aug 2021 - May 2025

B.A. Computer Science & B.A. Cognitive Science | **3.9 GPA, Distinction in General Scholarship**

Yonsei University (South Korea) - Exchange Program, Psychology | **4.0 GPA** Feb - Jun 2024

## Skills

---

**Languages, Frameworks, & Infra:** Python | TypeScript | Java | SQL | Go | C | React | REST APIs | Docker | AWS | OpenSearch

**AI Tooling:** Claude Code | Cursor | Copilot | MCP | Prompt + tool design | LLM tool orchestration | GenAI productionization

**Interests & Achievements:** Mountain Backpacker | Writer - Self-published e-book on philosophy | Visual Artist - Scholastic Gold Key Art Award | C3 Pi Day Competition Winner - memorized 888 digits of  $\pi$
